sgn the book surgery for medical students covers more than 250 mcqs with answers

multiple choice questions in plastic surgery provides over 400 questions answers and explanations covering the breadth of plastic and reconstructive surgery including burns the expansive array of questions with detailed explanations and references will provide a solid foundation for those preparing for final specialty examinations such as the american boards the frcs plast ebopras mch and others the questions are drawn from international experts and are up to date with the latest concepts and techniques including face transplantation new trends in reconstructive and aesthetic surgery and recent scientific advances it will therefore appeal to those interested in plastic surgery education globally in particular it will help plastic surgeons to keep up to date in the specialty and demonstrate this through continuing medical education cme and for processes of revalidation

the goals of our book are to prepare students for final examinations and to prime them and young surgeons to face the real world of surgical practice to achieve these goals we have been listening to feedback from students and colleagues whose advice has been invaluable accordingly in this fourth edition we have made changes in the content as well as the format we have been warned that many eager students move to the provided adjacent answer before allowing time to solve a question on their own the advice was to move answers to the end of each chapter we hope this change will generate in students enough sense of excitement and curiosity to motivate them to think analyze and choose the most appropriate diagnosis and management we have made more extensive changes in the content the number of plain mcqs has risen from 678 to 753 two new section of clinical photographs and clinical imaging based questions have added further 117 mcqs stress has been laid on more case scenario questions with the aim of consolidating knowledge obtained from textbooks and adapting it for use under common surgical situations we still encourage students to use this book for evaluation of their grasp of the science

of surgery and for the purpose of a quick review before examinations we hope it will be of value in this regard and that it will be as enjoyable and thought stimulating for the reader as it has been for us in the process of composing

there is a great shortage of mcqs book in paediatric surgery to fulfil that need dr muhammad khalid syed has prepared this mcqs book this book provides in depth knowledge of paediatric surgery for each question readers are asked to select the one best answer in majority of questions it is asked to select the false option out of five possible choices the purpose of this is to provide an abundance of correct information directly rather than writing much details in answer the topics covered in this book include the abdomen with inguinal area and genitalia urology thoracic surgery head neck and soft tissue lesions orthopaedic trauma oncology and vascular and lymphatics in the end there are mcqs related to anatomy required in paediatric surgery this book will increase your score for all paediatric surgical examination general surgical examination to cover portion of paediatric surgery and paediatric medicine examination to covers the differential diagnosis of surgical conditions

we realize the need of students for additional sources of multiple choice questions we also appreciate their need for a quick revision before sitting for examinations this is why we put together this book multiple choice questions and rapid revision of surgery it contains more than 756 questions all of them have explanatory answers key facts to remember are included at the ends of selected chapters we hope the book will be of value for undergraduate as well as postgraduate students it therefore contains questions of different grades of difficulty this book is by no means a substitute for classic textbooks we however encourage students to go through all questions more than once in order to consolidate their surgical knowledge and to cultivate the state of mind that prepares them for the examinations

a multiple choice question book aimed at candidates sitting the new clinical surgery in general csig section of the mrcs examination this new book comes from two of the authors of the successful frcs mcqs in applied basic sciences in response to the changes in the frcs examination the authors will be including mcqs and incorporating questions on some of the newer syllabus subjects such as audit research and ethics mrcs mcqs for the surgical membership will contain approximately 300 questions and answers as well as a specimen paper

this text has been designed as a supplement to the textbook of surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery there are two types of multiple choice questions type a and type x type a have a single best response from five alternatives and are designed to test judgmental ability type x questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application the text is set out in three sections the first containing type a questions the second containing type x questions and the third containing short answer questions that emphasize clinical management problems in each section the questions are presented in the sequence used in textbook of surgery the number of questions for each general topic relate to the relative importance ascribed to each topic in order to provide balance the answers are accompanied by a reference to the chapter s in the textbook of surgery where the information required to answer the specific question is presented

this book follows closely the syllabus for the mrcs afrcs in edinburgh diploma it contains 200 mcqs with 1 000 specific questions covering the whole syllabus the questions are grouped in the same fashion as in the syllabus to facilitate self assessment
